

## How to rename yourself in VoiceThread

1. Click to Voicethread through Sakai or visit [ithaca.voicethread.com](http://ithaca.voicethread.com)
2. Click the hamburger menu on the left side by the course name and click **Go to VT Home**

3. Click on the email in the top right corner of the page. Click **My Identities**

4. Click the + icon and give yourself a new identity! (If only it was all as simple as that!)

5. Make sure you click on the new identity. It will have a thin box around the one that's selected. If you want the old ones to go away, click Archive and they won't follow you anywhere in VT anymore
